R A P T & Co

Premier Compliance & Advisory Firm

Headquartered in Chennai, India's Industrial Powerhouse

Founded by industry veterans with 20+ years of experience, we specialize in DPDP Compliance, SOC Audits, Privacy Audits, Income Tax Representation before CIT Appeals & ITAT, International Taxation, Cross Border Appeals, GST Appeals & GSTAT, and GRC.

We help organizations build trust, strengthen controls, and stay ahead of regulatory expectations in an increasingly digital world.

Why Choose R A P T & Co?

20+ Years of Proven Expertise — So You Never Have to Second-Guess

Your business deserves advisors who have navigated every audit, appeal, and regulation firsthand. Our founding team brings two decades of real-world experience in cost accounting, taxation, and compliance — ready to protect your interests from day one.

One Firm. Complete Coverage. Zero Gaps.

Stop juggling multiple consultants. Whether it's DPDP compliance, SOC & Privacy Audits, CIT Appeals & ITAT representation, International Taxation, GST Appeals & GSTAT, or GRC — you get a single, accountable partner for every compliance need.

Built for the Digital Era — So Your Business Stays Ahead

Regulations are evolving fast — from the DPDP Act to cross-border tax reforms. Our technology-driven frameworks keep you compliant today and prepared for what's next, turning regulatory change into a competitive advantage.

Why Choose R A P T & Co?

Strategic Advantage from India's Industrial Capital

Based in Chennai — the heart of India's manufacturing and IT corridor — we understand your operating environment deeply, while our national network ensures seamless service wherever you do business.

Your Growth is Our Mission

We go beyond ticking compliance boxes. We strengthen your internal controls, build lasting stakeholder trust, and position your organization to grow with confidence in an increasingly regulated digital world.

Proven Track Record Across Industries

From banking and financial services to manufacturing, healthcare, telecom, and technology — our team has delivered results across regulated and non-regulated sectors, earning the trust of MNCs, SMEs, and high-growth enterprises alike.

Our Vision & Mission

Our Vision

To be India's most trusted advisory firm in technology, taxation, and regulatory compliance — empowering organizations to operate with confidence, transparency, and resilience in an increasingly complex and digital business landscape.

Our Mission

We are committed to delivering comprehensive, technology-driven compliance and advisory solutions that protect our clients' interests and fuel their growth. Through deep expertise in DPDP Compliance, SOC & Privacy Audits, Income Tax Representation, International Taxation, GST Appeals, and Governance, Risk & Compliance (GRC), we serve as a single, accountable partner for every regulatory need.

Our Core Values

- **Integrity First** — We uphold the highest ethical standards in every engagement
- **Client-Centric Excellence** — Your success is the measure of ours
- **Innovation & Adaptability** — Embracing technology to stay ahead of evolving regulations
- **Accountability & Trust** — Building lasting partnerships through transparency and reliability

DPDPA Compliance

Digital Personal Data Protection Act, 2023

We help organizations navigate India's landmark data privacy legislation with end-to-end compliance solutions, ensuring you meet every obligation while building lasting digital trust.

Our Services

- **Gap Assessment & Readiness Audit** — Evaluate current practices against DPDPA requirements and develop strategic remediation plans
- **Consent Management & Data Mapping** — Implement auditable consent frameworks and comprehensive personal data flow mapping
- **Data Protection Impact Assessment (DPIA)** — Assess and mitigate risks associated with data processing activities
- **Privacy Policy & Governance Framework** — Develop compliant policies, DPO setup, and Data Principal rights management
- **Breach Management & Reporting** — Incident response plans, 72-hour breach notification, and regulatory reporting to the Data Protection Board
- **Cross-Border Data Transfer Compliance** — Navigate regulations for transferring personal data outside India
- **Continuous Monitoring & Training** — Ongoing compliance reviews, employee awareness programs, and regulatory update tracking

SOC Audits

System and Organisation Controls (SOC 1, SOC 2 & SOC 3)

We deliver independent SOC attestation services that help organizations demonstrate their commitment to security, confidentiality, and operational excellence — building trust with clients and stakeholders.

Our Services

- **SOC 1 (Type I & Type II)** — Internal controls over financial reporting (ICFR) for service organizations managing client financial data
- **SOC 2 (Type I & Type II)** — Evaluation across five Trust Service Criteria: Security, Availability, Processing Integrity, Confidentiality, and Privacy
- **SOC 3 Reports** — Public-facing attestation summaries to demonstrate security commitment to a broader audience
- **Readiness Assessments** — Pre-audit gap analysis to identify control deficiencies and prepare for formal examination
- **Control Design & Remediation** — Design, implement, and test internal controls aligned with AICPA standards
- **Continuous Compliance Monitoring** — Ongoing testing and evidence collection to maintain audit readiness year-round

Privacy Audits

Comprehensive Privacy Audit Services

Our privacy audit services provide independent assurance that your organization's data handling practices meet regulatory requirements and industry best practices — protecting your reputation and your stakeholders' trust.

Our Services

- **Privacy Framework Assessment** — Evaluate policies and procedures against GDPR, DPDPA, ISO 27701, and other global privacy standards
- **Data Processing & Lifecycle Audit** — End-to-end review of data collection, storage, processing, retention, and deletion practices
- **Third-Party & Vendor Privacy Risk** — Assess vendor data handling, contractual safeguards, and supply chain privacy compliance
- **Privacy-by-Design Reviews** — Embed privacy principles into product development, system architecture, and business processes
- **Employee Awareness & Culture Assessment** — Evaluate organizational privacy awareness and recommend training programs
- **Certification-Ready Audits** — Prepare your organization for ISO 27701, SOC 2 Privacy, and other privacy certifications

Income Tax Services

Direct Tax, International Taxation & Appellate Representation

We provide strategic income tax advisory and robust representation services — from proactive planning and compliance to aggressive defence before CIT (Appeals), ITAT, and higher forums.

Our Services

- **CIT (Appeals) & ITAT Representation** — Strategic case preparation, drafting of appeal grounds, and expert advocacy before appellate authorities
- **International Taxation & Transfer Pricing** — Cross-border tax structuring, DTAA advisory, BEPS compliance, and transfer pricing documentation
- **Cross-Border Appeals & Dispute Resolution** — Representation in MAP proceedings, DRP hearings, and international tax litigation
- **Tax Planning & Structuring Advisory** — Optimize tax positions through proactive planning, PE analysis, GAAR, and POEM advisory
- **Assessment & Scrutiny Support** — End-to-end support during income tax assessments, survey proceedings, and search cases
- **Expatriate Tax & NRI Advisory** — Tax compliance and planning for expatriates, NRIs, and foreign nationals working in India

GST Services

GST Advisory, Compliance & Appellate Services

With the GSTAT now operational since February 2026, we provide end-to-end GST litigation and compliance support — helping businesses resolve disputes efficiently and safeguard their financial interests.

Our Services

- **GST Appeals & GSTAT Representation** — Drafting and filing appeals before the GST Appellate Tribunal, with advocacy at Principal and State Benches
- **ITC Disputes & Refund Claims** — Resolution of Input Tax Credit denials, blocked credits, and GST refund rejection matters
- **Classification, Valuation & Place of Supply** — Expert advisory on HSN classification, valuation methodologies, and complex place-of-supply determinations
- **GST Litigation Strategy** — Comprehensive case analysis, pre-deposit management, stay applications, and interlocutory proceedings
- **GST Compliance & Health Check** — Return filing reviews, reconciliation audits, and proactive compliance to prevent future disputes
- **Anti-Profiteering & Advance Ruling** — Advisory and representation for anti-profiteering proceedings and applications before the AAR

Governance, Risk & Compliance (GRC)

Strengthening Governance, Managing Risk, Ensuring Compliance

Our GRC practice integrates governance, risk management, and compliance into a unified framework — helping organizations streamline operations, strengthen internal controls, and navigate today's complex regulatory environment with confidence.

Our Services

- **Enterprise Risk Management (ERM)** — Identify, assess, and mitigate risks with structured frameworks aligned to ISO 31000 and COSO standards
- **Internal Audit & Financial Controls (IFC/ICFR)** — Risk-based internal audits, SOX compliance, and testing of internal controls over financial reporting
- **Corporate Governance Advisory** — Board-level advisory, regulatory mapping, and governance structure design for sound decision-making
- **Regulatory Compliance Framework** — Diagnostic reviews, compliance roadmaps, and automated monitoring against applicable regulations
- **Process Audit & Optimization** — End-to-end process reviews to enhance efficiency, reduce errors, and build "right-fit" operational structures
- **IT GRC & Cybersecurity Governance** — Unified IT governance across on-premises and cloud, with real-time monitoring and risk analytics

Our Engagement Model

We follow a structured, outcome-driven approach to every engagement — ensuring clarity, accountability, and measurable results at each stage.

Phase 1 | Discovery & Assessment

- Understand your business landscape, regulatory exposure, and current compliance posture through stakeholder consultations and document reviews

Phase 2 | Gap Analysis & Strategy

- Identify compliance gaps, risk areas, and improvement opportunities; develop a tailored roadmap with clear priorities and timelines

Phase 3 | Implementation & Execution

- Deploy solutions — from policy frameworks and control designs to audit preparation, filing of appeals, and regulatory submissions

Phase 4 | Review & Reporting

- Validate outcomes against objectives, deliver comprehensive reports with findings and recommendations, and present to key stakeholders

Phase 5 | Ongoing Support & Monitoring

- Continuous compliance monitoring, periodic health checks, regulatory update alerts, and retainer-based advisory to keep you ahead

Flexible Pricing Models

We offer a range of commercially flexible engagement options tailored to your scope, risk appetite, and budget — so you always get the right fit.

Fixed Fee Model — Pre-agreed cost for a clearly defined scope; ideal for audits, compliance assessments, and filing engagements

Retainer Model — Monthly or quarterly retainer for ongoing advisory, compliance monitoring, and priority access to our experts

Time & Material (T&M) — Billed on actual hours and resources deployed; best suited for evolving or exploratory engagements

Hybrid Model (Fixed + Success) — A base fixed fee combined with a success bonus; balances cost predictability with performance incentives

Milestone-Based Model — Payments tied to completion of defined project milestones; ensures accountability and phased delivery

Dedicated Resource Model — Full-time or part-time professionals embedded within your team for sustained compliance and governance support

Case-Based Model — Per-case pricing for litigation, appeals, and dispute resolution before CIT(A), ITAT, DRP, GSTAT, or other forums

Managed Services Model — End-to-end outsourced management of a compliance function (e.g., GST filings, privacy operations, or GRC program)

Competitive Landscape

Understanding where we stand in the market — and what sets R A P T & Co apart from other players in the compliance and advisory space.

Big 4 & Large Consulting Firms (EY, Deloitte, KPMG, PwC, Grant Thornton)

- Premium pricing, large team structures, often siloed by service line. Clients may face junior resource allocation and slower turnaround for mid-market needs.

Boutique Tax Firms (Regional practices, single-partner firms)

- Strong in traditional tax compliance but typically lack capabilities in DPDPA, SOC audits, privacy, or GRC. Limited bandwidth for complex, multi-domain engagements.

Cybersecurity & Privacy Specialists (SISA, DigiFortex, Certbar)

- Deep in DPDPA and SOC but no taxation, appellate, or cost accounting expertise. Clients need additional firms for tax and compliance litigation.

Legal & Litigation Firms (Tax law practices, tribunal advocates)

- Focused on litigation and representation only. Lack proactive compliance advisory, audit readiness, and technology-driven governance frameworks.

The R A P T & Co Advantage

- **Single-window, full-spectrum coverage** — DPDPA + SOC + Privacy + Tax + GST + GRC under one roof
- **Senior-led engagements** — 20+ years of hands-on expertise, not delegated to junior staff
- **Mid-market pricing, enterprise-grade quality** — Big 4 calibre without the Big 4 cost
- **Chennai-rooted, nationally networked** — Deep local insight with pan-India reach

Where We Win

Real-world scenarios where R A P T & Co delivers outcomes that competitors simply cannot match.

Multi-Domain Compliance Overhaul

▪When a client needs DPDPA readiness, SOC 2 certification, and GST restructuring simultaneously — we deliver it as one integrated engagement, not three separate vendor contracts

High-Stakes Tax Litigation

▪Complex CIT Appeals, ITAT matters, and cross-border disputes where senior-led strategy and 20+ years of tribunal experience make the difference between winning and losing

GSTAT-Ready GST Disputes

▪With GSTAT now operational, businesses face a backlog of unresolved disputes. Our early-mover expertise in GSTAT procedures gives clients a decisive edge in ITC, classification, and refund cases

First-Time DPDPA Compliance for SMEs & Mid-Market

▪Organizations preparing for the 2027 DPDPA compliance deadline need practical, cost-effective guidance — not Big 4 pricing. We deliver enterprise-grade privacy frameworks at mid-market rates

GRC Buildout for Scaling Companies

▪Fast-growing companies entering regulated markets or preparing for audits need end-to-end GRC — internal controls, risk frameworks, and regulatory mapping — built from scratch by seasoned practitioners

Cross-Border Tax Structuring for MNCs Entering India

▪Multinational corporations setting up in Chennai’s industrial corridor benefit from our deep local knowledge, DTAA advisory, transfer pricing expertise, and PE analysis — all from a single partner

Trust & Safeguard Framework

We embed rigorous compliance and risk controls into every engagement — protecting your data, your interests, and our shared reputation from day one.

Non-Disclosure Agreement (NDA) — Executed before any data exchange; legally binding confidentiality covering all client information, trade secrets, and proprietary data

Conflict of Interest Disclosure — Proactive screening and declaration before every engagement to ensure independence and eliminate potential conflicts

Data Protection & Handling Protocol — Encrypted data transfers, restricted access controls, secure storage, and data retention/destruction policies aligned with DPDPA standards

Engagement Letter & Scope Definition — Formal letter of engagement clearly defining scope, deliverables, timelines, responsibilities, and liability limitations

Professional Indemnity & Insurance — Professional liability coverage to protect clients against errors, omissions, or advisory risks during engagements

Quality Assurance — Multi-level review process on all deliverables; partner sign-off on audits, opinions, and regulatory submissions

Ethical Code of Conduct — All team members bound by a formal code of ethics covering integrity, objectivity, professional competence, and anti-bribery compliance

Regulatory Escalation Protocol — Defined escalation matrix for regulatory notices, breaches, and time-sensitive filings to ensure zero-miss compliance

Client Feedback & Continuous Improvement — Structured feedback loops at engagement milestones to refine service delivery and address concerns in real time

Leadership Team

CMA Pavithra Mucherla

B.Com, ACMA, CISA, CEH, DISSA, DFA, DFM, AISA, ISO 27001 Lead Auditor, ISO 31000 CRMP, Social Auditor, Certified Independent Director

Taxation & Appellate Litigation

- Proven expertise across the full litigation lifecycle for Income Tax and GST appeals — from drafting grounds of appeal and submissions to representing clients before CIT(A), ITAT, and GST First Appellate Authority
- Adept at interpreting complex tax laws, identifying discrepancies, and formulating effective tax optimisation strategies for compliance and dispute resolution

Governance, Risk & Compliance (GRC)

- Over 15 years of deep expertise in internal audits, ISMS implementation, cybersecurity controls, and regulatory compliance frameworks
- Successfully led critical audits for banks, NBFCs, stockbrokers, and blockchain companies

Cybersecurity & Information Systems

- Multi-certified professional (CEH, ISO 27001 Lead Auditor, ISO 31000 CRMP, DISSA, DFA, DFM) with hands-on experience in IS Audits of NBFCs per RBI Guidelines and Cybersecurity Audits aligned with SEBI's CSCRF

Independent Representation

- Representing clients before tax and regulatory authorities; delivering SOC, IFC, forensic, and financial audits across finance, telecom, digital, and healthcare sectors
- Clients include an international financial institution, a multinational electronics manufacturer, and leading digital technology and IT services firms
